

Predicting

Name	
Class	

Name of Video Short:	
----------------------	--

- *Predicting happens when you think about what will happen **NEXT**.*
- *Good readers (viewers) are always making predictions as they engage with the story.*
- *Choose **ONE** visual short story to make your predictions with.*
- *Each story has 6 pauses to allow you to make your predictions.*
- *Watch the video and where it stops make your predictions.*
- *If you want to have a warm up to predictions check out this [VIDEO](#)*
- *Predictions do not have to be correct, but there must be a reason why you think something will happen.*

Stop #1

What do you observe? <i>(What do you see or what is going on in the story?)</i>
What will happen next? <i>(What do you think will happen?)</i>
What evidence do you have? <i>(What do you notice or know that makes your prediction possible?)</i>

Stop #2

What do you observe? <i>(What do you see or what is going on in the story?)</i>
What will happen next? <i>(What do you think will happen?)</i>
What evidence do you have? <i>(What do you notice or know that makes your prediction possible?)</i>

Stop #3

What do you observe? <i>(What do you see or what is going on in the story?)</i>
What will happen next? <i>(What do you think will happen?)</i>
What evidence do you have? <i>(What do you notice or know that makes your prediction possible?)</i>

Predicting

Stop #4

What do you observe?
(What do you see or what is going on in the story?)

What will happen next?
(What do you think will happen?)

What evidence do you have?
(What do you notice or know that makes your prediction possible?)

Stop #5

What do you observe?
(What do you see or what is going on in the story?)

What will happen next?
(What do you think will happen?)

What evidence do you have?
(What do you notice or know that makes your prediction possible?)

Stop #6

What do you observe?
(What do you see or what is going on in the story?)

What will happen next?
(What do you think will happen?)

What evidence do you have?
(What do you notice or know that makes your prediction possible?)
